I am privileged to have met Yahya and for having the chance to get beyond-expected support in turning my fact-showing websites into trendy, professional-looking and feature-packed platforms, not only showing static info but actually working for me: Automating many processes, adding multiple integrations, creating a pleasant experience for the visitors while capturing interested leads to my sales funnel. I will definitely continue working with Yahya in the future, as he provides not only high-quality of work, but a very structured co-development process and all done in a fraction of time, offering incredible speed of making things happen.

Laud Akuffo

TANF Ghana

Yahya has been an invaluable support for TANF for many years sharing his exceptional web development, coding, UX skills, and out-of-the-box interface thinking to make TANF not only have a website but assure the needed functionality any charity or NGO needs in today's interconnected world. Thanks to the new website, its new features and multiple integrations we are finally able to share our mission, raise funds effortlessly and give all our sponsors and volunteers an attractive and user-friendly way to access information about our impact, events and the multiple projects we are running.
